END U.S. AID TO ISRAEL

Upon the Palestinians, the occupation inflicts oppression, humiliation, poverty, suffocation and despair; For Israel it means the erosion of moral values, the collapse of the economy, and misery for the needy.

-Yesh Gvul (Israeli Refuseniks)

Israel uses US tax dollars - in both military & economic aid - to finance the seizure of Palestinian lands, collective punishment of Palestinian civilians, and the systematic destruction of Palestinian society. These acts are illegal under the Geneva Conventions.

The US Arms Export Control Act explicitly forbids US military aid to any country that violates human rights.

Economic aid allows Israel to channel ever more funds into military operations, and must also be halted.

Upholding human rights is not "weakness." Supporting a violent, illegal occupation serves neither democracy nor security.

End US aid to Israel.
End the Occupation.

Most of the economic assistance [to Israel] has gone to ... non-productive sectors such as settlements and the military...

Israel uses U.S. aid to finance violations of international human rights law.

NO OIL WAR ON IRAQ NO LAND WAR ON PALESTINE

Bush helps Israel violate U.N. resolutions on Palestine.

While Bush claims "outrage" over Iraq's violation of UN resolutions, the US refuses to acknowledge UN resolutions about illegal Israeli military actions and massive human rights violations. Israel's occupation of Palestine is illegal (UN Sec. Council Resolution 242). Israel's settlements in Occupied West Bank and Gaza are illegal (UN Sec. Council Resolution 446). Palestinians have the right to self-determination. (UN Sec. Council Resolution 1397).

Under cover of war, ethnic cleansing begins.

While international attention is focused elsewhere, Israel threatens to begin the expulsion of Palestinians from the Occupied Territories. Mass expulsion of the Palestinians occurred during the wars of 1948 and 1967, and has continued throughout the military occupation of the West Bank & Gaza.

Israel should have exploited the repression of the demonstrations in China, when world attention focused on that country, to carry out mass expulsions among the Arabs of the territories."
